## M. N. Nairn Manager T. L. Metcalfe IN R. R. WRECK

Vincennes Releases The Painfully Injured When T. C. Train Was Derailed.

MOGULS GOBBLE HIM TWENTY OTHERS HURT.

Live Dope For The Coming Baseball Season.

Every fan in Hopkinsville will be glad to know that the Mogul Directors have signed a contract with "Mother" John Nairn, to manage the team the coming season. He will not only manage but will play first base as he did for Vincennes last season. As every one knows, he was one of the heaviest hitters in the League and was popular with the public. He is expected to bring with him DeHaven, the best third baseman in the League and also several good pitchers and fielders.

Among the new men already signed are a catcher named Mace, a second baseman named Clark and shortstop. Ireland and Powers, catchers and several others. Of the old players contracts have been sent to Brown, Murray, Yon, Lyons, Johnson, Guy Johnson, McElfresh, Mike Taylor and others. There will be no scarcity of material to select from and manager Nairn promises to make it a winning team.

He will assemble them at Danville, Ill., a month ahead and play practice games in that circuit before coming here. Last year by playing his way for Vincennes he made Vincennes start the season with a small profit, whereas Hopkinsville opened the season \$1,000 in the hole.

Word comes that Murray has accepted a job with the L. & N. Railroad and may not play ball this season. Brown is also laid up from sticking a nail in his foot.

### Leg Broken By Fall.

Mr. W. T. Williamson fell on the ice in his yard yesterday and broke a small bone of his right leg above the ankle. He will be laid up for some time.

Despite the sudden change of wintry weather, Hon. W. J. Bryan was greeted by a large crowd at the Tabernacle last night and the great Commoner talked to his hearers as only Bryan can talk. LONGEST STREET

Will be Thirteenth When Extended to Ninth.

The residents on East Thirteenth street have petitioned the Council to extend that street from its present termination, through the old pond known as Thompson's bottom to East Ninth street, near the residence of J. H. Cate. It would require a big fill in the wet weather pond, but the street when opened will be the longest straight street in the city, extending in an air line from the Pioneer Graveyard to within a short distance of the eastern limits of the city, a distance of nearly two miles. The matter is now in the hands of the street committee, which will make a favorable report.

### NITRO GLYCERINE

Used by Burglars at Cerulean Springs.

Foster Rawls general merchandise store at Cerulean Springs, in which the postoffice is kept, was broken open about two o'clock Saturday morning, but the thieves secured very little. Entrance was effected by prizing the front door. The safe was blown open with nitro glycerine, but it contained only some small change, probably about fifty cents, which was taken. The burglars also opened the stamp drawer in the postoffice department, securing about fifty cents in pennies and nickels. Mr. Rawls is postmaster. Bloodhounds from Cadiz were brought to Cerulean Saturday morning, but the thieves could not be located.

## Mormon Church a Great Secret Society.

In his article on "The Mormon Revival of Polygamy" in the February McClure's, Burton J. Hendrick speaks of the deceptive attitude of the Mormon Church toward plural marriages, which, while it openly repudiates, secretly encourages polygamy. Mr. Hendrick says:

"The anti-Mormon view is that this public repudiation of polygamy is simply part of the Mormon game. Its purpose is to blind the outside world. The Mormon policy is secretly to promote and encourage polygamy, and outwardly to repudiate it. The critic most friendly to the Mormons must admit that, outwardly, many circumstances lend color to this view. The one prominent fact is that the Mormon Church is a great secret society. Non-Mormons are never permitted to enter its temples; the rites and instruction that take place in them are never officially made public; all members of the church are oathbound, under the most frightful penalties, not to reveal these mysteries. Mormons who have "gone through" these temples wear, day and night, an undergarment, inscribed with mystic symbols, as a perpetual reminder of these oaths. The church has its marriage records, but never permits the non-Mormon public to see them. The publication of these records would go a long way toward proving, or disproving, the charge that the church encourages polygamy; but they are held inviolate in the temples. In 1904 the United States Senate attempted, unsuccessfully, to subpoena them. If these records are entirely innocent, and if the statement of the church is true, that the entries concern only marriages that are valid in the eyes of the civil law, why should they not be produced?"

Did you ever notice how often women otherwise daintily dressed use soiled gloves? Her collar, blouse, coat and skirt and even her shoes are marvels of neatness and yet nine times out of ten if she uses kid gloves they are soiled. Once there was reason for this. ## SEVENTEEN-YEAR LOCUS RETURN

No Mistake About the Pests  
"Coming Back" for First  
Grubs are Found.

## TROUBLE TO FARMERS

But Chinese Welcome Visitation, For They Provide  
Delicate Dishes.

New York, Feb. 17.—The seventeen-year locusts, which are due to return to plague the American farmer this summer after being absent since 1894, have made their appearance in the vicinity of New York City. Curator Ditmars, of the New York Zoological Society, has discovered the first grubs, several thousand in number, in an excavation near Nyack, N. Y. By the time the frost is out of the ground, these thousands will be millions, he says.

During the last previous visitation the locusts literally covered suburban New York, stripping trees, bushes, hedges, lawns and truck farms of everything green and then, moving in vast clouds which obscured the sun, sought fresh fields. The individual locusts lived only a few days, but each female in that time found time to lay about 500 eggs on the branches of denuded trees.

When the larvae hatched they fell to the ground and burrowed straight down for more than a foot. There it is said they have rested for seventeen years before the process of hatching was completed, and as soon as the frost leaves the ground they will dig their way to the surface and appear as small oblong shells.

The grubs found in the excavation at Nyack are said to be completely formed and ready to come to the surface as soon as the earth warms up.

Chinatown will welcome the visitation. The Chinese cook makes them into pies, roasts them, eats them as a salad and dresses them in many mysterious ways, and even New Yorkers have found some of these dishes palatable.

## THIRTY YEARS TOGETHER.

Thirty years of association—think of it. How the merit of a good thing stands out in that time—or the worthlessness of a bad one. So there's no guesswork in this evidence of Thos. Ariss, Concord, Mich., who writes: "I have used Dr. King's New Discovery for 30 years, and its the best cough and cold cure I ever used." Once it finds entrance in a home you can't pry it out. Many families have used it forty years. It's the most infallible throat and lung medicine on earth. Unequalled for lagrippe, asthma, hay-fever, croup, quinsy or sore lungs. Price 50c, \$1.00. Trial bottle free. Guaranteed by all druggists.

## ROW OVER PEARY,

Washington, Feb. 17—Representative Macon, of Arkansas, speaking in general debate on the naval appropriation bill in the house last night, made a sensational attack upon Capt. Robert E. Peary, denouncing him as a "fakir" and declaring that he "should be driven from the naval service."

The bitter words used by the member from Arkansas called out a quick reply from Peary's friends. Representative J. Hampton Moore, of Pennsylvania, after vainly attempting to interrupt Mr. Macon, finally got the floor in his own right. He characterized Mr. Macon's speech as "unjust, outrageous and offensive."

## ACCUSED OF STEALING.

E. E. Chamberlain, of Clinton, Me., boldly accuses Bucklen's Arnica Salve of stealing—the sting from burns or scalds—the pain from sores of all kinds—the distress from boils or piles. "It robes cuts, corns, bruises, sprains and injuries of their terror," he says, "as a healing remedy its equal don't exist. Only 25c at all druggists."

## HELPLESS AS A BABY.

Valley Heights, Va.—Mrs. Jennie B. Kirby, in a letter from this place, says: "I was sick in bed for nine months, with womanly troubles. I was so weak and helpless at times, that I could not raise my head off the pillow. I commenced to take Cardui, and I saw it was helping me, at once. Now, I can work all day." As a tonic, for weak women, nothing has been found, for fifty years, that would take the place of Cardui. It will surely do you good. Cardui is prepared from vegetable ingredients, and has a specific, curative effect on the womanly organs. Try a bottle today. At your druggist's

## FIGHTING TO HEAR BRYAN.

Rev. Dr. Chas. Dirke, of Clarksville in his lecture on the World's Conference on Foreign Missions, given last Wednesday night at the Ninth St. Christian Church, told an interesting story of how the people and visitors of Edinburgh, where the conference was held, fought to hear the "Great Commoner." Dr. Deihl said that as soon as the ticket office was open for the sale of sittings for the Bryan lecture, which was announced as a special feature of the Conference, a multitude gathered, bought all the space in the house and still demanded sittings. So it became necessary to display sign at the place of sale announcing to the throngs about it that no other inch of space remained unused and importuning the people to go away. Dr. Deihl said further that men sparred for places in the lines of purchasers of the coveted space.

This demand to hear Mr. Bryan was the more remarkable and significant in view of the fact that the city was full of men of most exalted character, of noblest intellect, and of splendid oratorical gifts, who also were on the Conference program.

It adds further lustre to Mr. Bryan's triumph that in the lines of those who struggled and battled that they might hear him, were representatives of all the civilizations of our time. It should be noted also that he spoke at the time appointed for an hour and a half and that no one worried and all were as alert and eager at his closing as at his first word.

It is doubtful if even in Mr. Bryan's own career of uninterrupted oratorical triumph is to be found a finer tribute to the power over the human heart of golden speech.

"My child was burned terribly about the face and chest. I applied Dr. Thomas' Eclectic Oil. The pain ceased and the child sank into a restful sleep."—Mrs. Nancy M. Aanson, Hamburg, N. Y.

## MAY VETO PENSION BILL.

Washington, Feb. 16.—The prediction was freely made on the floor of the house to-day that President Taft will veto the Sulloway general pension bill if it passes the Senate. Similar expressions have been heard frequently at the Senate end of the Capitol, but not publicly made in debate. The bill would increase the pension rolls about \$50,000,000 a year.

## DIMINUTIVE TWINS.

Seymour, Indiana, Feb. 17.—The smallest child and the smallest set of twins ever born in this part of Indiana were born to Mr. and Mrs. Allen Steele, of near Fleming, a small station four miles east of Seymour, on the B. & O. railroad. Both are boys, the smallest weighing only one pound and the larger two and one-half pounds. Both seem perfectly formed, and they bid fair to live, as they seem to be healthy in every way. Mrs. Steele is about 21 years of age, and her husband is about 40. They have resided in this county about a year.

## REV. LEWIS DEAD.

Brother of Former Presiding Elder of Louisville District.

News has been received of the death at Olmstead, in Logan County, of the Rev. James A. Lewis, one of the oldest and best-known Methodist ministers in the state, and who had held charges at many points in Kentucky. Dr. Lewis was a brother of the Rev. John W. Lewis, presiding elder of the Bowling Green district, and formerly presiding elder here.

The Rev. James A. Lewis had been in poor health for several years and was placed on the superannuated list by the Louisville conference a short time ago. He is survived by several children.

## HIDDEN DANGERS

Nature Gives Timely Warning That no Hopkinsville Citizen Can Afford To Ignore.

DANGER SIGNAL NO. 1 comes from the kidney secretions. They will warn you when the kidneys are sick. Well kidneys excrete a clear, amber fluid. Sick kidneys send out a thin, pale and foamy, or a thick, red, ill smelling urine, full of sediment and irregular of passage.

DANGER SIGNAL NO. 2 comes from the back. Back pains, dull and heavy, or sharp and acute, tell you of sick kidneys and warn you of the approach of dropsy, diabetes and Bright's disease. Doan's Kidney Pills cure sick kidneys and cure them permanently. Here is proof in the statement of a nearby resident.

George E. Wallace, of Cadiz, Ky., says: "I am glad to recommend Doan's Kidney Pills to other sufferers from kidney trouble, as I found them to be a reliable remedy. About two years ago my kidneys began to bother me. My condition finally became so bad that I knew I must do something for the trouble. A friend finally advised me to use Doan's Kidney Pills and I procured a supply. Soon after I began taking them I was completely cured."

## AMUSEMENTS

## "THE THIEF"

"The Thief," that powerfully gripping drama of a woman who steals in order to make herself attractive in the eyes of her husband, produced two years ago at the Lyceum Theater, New York, will be seen at Holland's Opera House tonight. It tells the story of Richard Voisin and his wife comparatively poor, who are visiting their rich friends, Raymond La Gardes and Madame La Gardes. There is a son, Ferdinand La Gardes, who is in love with Madame Voisin. She laughs at his boyish passion. A thief steals 21,000 francs from Madame La Gardes. All indications point to Ferdinand, the son, and in a remarkable dramatic scene he admits the theft. Then follows the second act—in many ways the most remarkable act ever seen on the American stage. But two people are on the stage, Richard Voisin and his wife, the chief characters in this overwhelming, dramatic gem. From lightness to love, the husband assisting his wife in removing her wraps preparatory to retiring, the scene develops until the wife, questioned by the husband as to the source whereby she is able to buy gowns and undergarments of such costly texture, is forced to confess that she and not the son of their friends, stole the 21,000 francs from Madame La Gardes.

She pleads that she took the money to make herself beautiful, attractive and interesting in the eyes of her husband who has often admired the gowns and hats of her friends. So deeply did she love him that the level of the thief was not too low for her to sink to please him. He criticizes her severely and threatens to leave her. Then follows a scene that cannot be described in words. It must be seen to be fully appreciated.

## TO CHECK SHEEP SCABIES.

The annual meeting of the Kentucky Sheep Breeders' Association will be held at Mt. Sterling, Ky., on Friday, February 24, during the meeting of the State Farmers' Institute. Every sheep man in the State is urged to be present at this meeting to take some action to stamp out the scabies or sheep scab that is now epidemic among the flocks in certain parts of the state. More than 19,000 sheep shipped from Kentucky in six months were found to be affected with this disease upon their arrival at the various stockyards where government inspection is maintained. If the sheep breeders of this state don't stamp out this disease the United States Bureau of Animal Industry at Washington, D. C., will have to do it for them.

### IS HUMAN VACUUM CLEANER

Amanda's Economics in Line of Good Housekeeping Have a Screw Loose.

Long before the introduction of the vacuum cleaner Amanda had achieved by sheer persistence of arm, the energetic welding of broom and brush, the precise results accomplished by this excellent invention. Her husband whimsically complains that the house is always in process of renovation and seldom is a condition which can be considered comfortable and livable, but he is a mere man and little can be expected of him. Of course, Amanda is ill from time to time, usually as the result of doing more than she ought. She has headaches, backaches and nerves that are on edge. Her sons slip out of the house in the evening because they prefer to be where they are not reproved if they draw a chair from its place or leave a newspaper on the floor. Her daughters enjoy visiting much more than staying at home, and her maid seldom remains longer than a week or two. She had nineteen successive maids in a single season. Somehow Amanda's economies in the line of good housekeeping have a screw loose. She observed one day that she sympathized with the women who liked to have her house perfectly ordered and who then wished that she could take her family and live in the barn so that the house need not be disturbed.—Margaret E. Sangster, in Christian Herald.

### INVISBLE INDIANS.

All Indians seem to have learned a wonderful way of walking unseen—making themselves invisible like certain spiders, which, in case of alarm, caused for example by a bird alighting on the bush their webs are spread upon, immediately bounce themselves up and down on their elastic threads so rapidly that only a blur is visible. The wild Indian power of escaping observation, even where there is little or no cover to hide in, was probably slowly acquired in hard hunting and fighting lessons while trying to approach game, take enemies by surprise, or get safely away when compelled to retreat. And this experience transmitted through many generations seems at length to have become what is vaguely called instinct.—John Muir, in the Atlantic.

Splendid Work Being Done by Officials of John Howard Industrial Home at Boston.

What society shall do with discharged prisoners is slowly but surely being solved by the John Howard Industrial home at Boston, which celebrates its twentieth anniversary soon. A most pathetic object is the discharged prisoner, who thinks every passer-by sees the prison stigma upon him. This saps his courage and he slips back again until once more he is associating with criminals. The Howard home seeks to furnish him with a grip upon a new life.

During the last 20 years nearly 21,000 discharged prisoners have been cared for by the home until positions have been found for them. The home was founded in 1890 by the present superintendent, Albert Arnold, and several other workers.

"I am sometimes asked," says Superintendent Arnold, his kindly face beaming good nature, "how many men are deserving of help? I always reply that all are good men. Every one has good points."

"Too much criticism is directed against them for the slightest errors. All they need is encouragement in order to forget the old life and start the new."

### STRANGE OATHS.

Before Mr. Justice White took the oath of chief justice he was required to subscribe to the "oath of allegiance" required of all ex-Confederates entering upon federal office. When Judge Buchanan presented himself in the Tennessee supreme court as a member of that body appointed by the governor a few days ago, he was called upon, under the law of the state, to swear that he had not engaged in a duel since the passage of the statute on the subject and that he would not do so during his term of office.

It is well that judges on the bench be bound by sufficient formal obligations and pledges. At the same time such oaths as those mentioned were formulated for times far other than the present, and it might be well to abolish them.

The Weather.

FOR KENTUCKY—Fair and continued cold Tuesday.

According to Wm. E. Curtis, the nations of Europe have paid in 25 years \$67,500,000,000 to maintain their armies, a stupendous price to pay for peace.

The Frankfort News-Journal was changed to a morning paper Friday and is getting better all the time.

The Seelbach Hotel is to build a ten-story annex, with 150 rooms, to meet the demands for cheaper rates for rooms. Popular prices will be charged in the new addition.

The Mayfield Messenger says J. C. Speight, of that place, will be the Republican nominee for Governor and that he never really wanted to be District Attorney. Lined up soundly behind him will be Frank Fisher, Senator Bradley, State Treasurer Ed Farley, Ben Bruner, Congressman Langley and every Federal office holder in the state of Kentucky. This aid means that a solidified machine already is lining up the boys in the trenches for Speight.

The way the Democratic Executive Committee is handling the primary election matter is getting to be almost a party scandal. Three meetings have been held and still the candidates who have not already quit the field do not know when the entries will close. At the first meeting, the primary was called for May 27 for only a part of the offices and the statement was made that the candidates would not be held up. At the second meeting, the primary was extended to the senatorial race and the candidates assessed \$18,500. At the third, but little was done except to increase these assessments 25 per cent, and leave the poor candidates in suspense, although it is less than 100 days until the election. What is the purpose of all this juggling? Is it to force off the track all but a few candidates and re-establish the same sort of machine rule that wrecked the party four years ago? Has the object lesson to the South of us been so soon forgotten? Cannot wisdom come from experience? It seems not.

DuRelle Wins out.

The President renominated George Durelle, of Louisville, to be United States Attorney for the Western District of Kentucky.

Maine to Vote.

The Maine House of Representatives passed the Senate resolution resubmitting a popular vote the constitutional amendment on prohibition drafted in 1884. Nineteen Republicans voted with eighty-six Democrats for resubmission.

Young Jay Gould.

The engagement of Jay Gould to Miss Annie Douglas Graham was announced at a dinner in New York.

Mr. Gould is a son of George Gould, and his fiance was a bridesmaid at the Deedes-Gould wedding.

Another Lyncher.

At Newark, O., Clarence Timmons, charged with first-degree murder, in connection with the lynching of Carl Ethrington, of Kentucky, changed his plea of not guilty to a plea of guilty of manslaughter.

Capt. Davis Declines.

Capt. Brinton B. Davis, president of the Louisville Commercial Club, has declined to accept the office of Colonel of the First Kentucky Regiment, conferred upon him at the election recently held by that organization. In a letter addressed to the officers and members of the regiment, he acknowledges the high tribute paid him, but declines to serve, stating that his own business and his work as head of the Commercial Club take up all his time.

E. J. Ashbey Suicides.

E. J. Ashbey, a leading merchant of Madisonville, committed suicide Friday, by drinking a bottle of carbolic acid, in the wood house on his lot. He left no explanation. He was rich and leaves a family.

Another J. D.

Joseph D. Rockefeller, a cousin of John D. Rockefeller, died at South Bend, Ind., at the age of 90 years.

Was It Miles?

Paducah papers are having a controversy over the identity of a man who had "Allie Miles" tattooed on his arm and was trying to sell some diamonds to local jewelers. The News-Democrat says the man was Arthur Miles, but the Sun says he did not resemble the man who escaped from the Western Asylum. He was turned loose.

Will Plead His Own Case.

Senator Lorimer announced that he will defend his right to his seat before the Senate Wednesday. His remarks will likely close the discussion of the case, and an early vote is looked for.

Awful List.

The Viceroy of Manchuria estimates that there have been 65,000 deaths from the bubonic plague in his province. It is believed, however, that the number of fatalities will nearly double those of the official estimates.

**RAISED TO \$20**

Counterfeiter Baffled Here  
Succeeds at Owensboro.

A week or two ago Cashier A. H. Eckles came into possession of a \$1 bill that had been cleverly raised to a \$20 bill. While an investigation was being quietly made, the matter was kept out of the papers. The man who attempted to pass it for a \$20 bill has not been seen again and has evidently gone to Owensboro. The Messenger says a similar raised bill was passed on John Midkiff, a grocer, by a tall, smooth shaved, dark complexioned man wearing a brown shirt, derby hat and a light checked coat. The police have been unable to find him.

**TOOK TWO GAMES.**

**H. H. S. Won From Cumberland City.**

The Hopkinsville High School boys took both games of basket ball from the Cumberland City, Tenn., Academy team. They won the contest Friday night by the score of 42 to 17 and Saturday night's game resulted in a score of 36 to 13 in favor of the local team. The work of the High School team was superb in both contests, and, although the visiting team was made up of boys much larger than those composing the local team, the latter won with ease.

**\$10,000 Cut.**

The salary of Dublin's Lord Mayor-elect, John D. Farrell, has been cut from \$18,000 to \$8,000 a year. Mr. Farrell says he will close the mansion house and live at home.

**CHECK ON HAND**

**For Payment of Sheep Killed by Dogs.**

County Clerk Stowe is in receipt of a check for \$479.50 from the state auditor, covering the greater part of the amount of claims due for sheep killed by dogs in Christian county during the year 1910 and claimants can get their money by calling on Mr. Stowe. The total amount of claims is \$557.50, leaving a balance of \$78 yet due.

**Two More Naval Officers Dead.**

Rear admiral Strong Bogert, medical director, U. S. N., retired, died in New York, and Commanded Herbert G. Gates, U. S. N., died in Washington.

**CLEANING DAY HINTS**

**USE A SOLUTION OF WASHING SODA ON TILED GRATES.**

**Wear Rubber Gloves When Putting Down a Carpet—Paper Will Stick.**  
Over Whitewash if Skim Milk Is Put in the Paste.

To clean-tiled grates, a strong solution of washing soda thickened to make a paste with fuller's earth is excellent. This will easily remove stains or grease, while it is equally efficient in the case of grease-spotted marble. The paste should be left on for an hour or two, and then washed off with a flannel dipped in a hot lather.

In putting down a carpet it is an excellent plan to slide a pair of gloves over the shoes. The rubber enables the carpet to be drawn out and stretched by simply walking or pushing the carpet with the feet from the center to the corners.

In papering a room which has hitherto been whitewashed, it is not easy to make the paper adhere satisfactorily. The experiment should be tried of forming the paste with skim milk instead of water. The milk must, however, be carefully skimmed so that every drop of the cream has been removed; the whey of separated milk being the best for the purpose. The paste must be scalded well, and should on no account be too thick.

The best method of cleaning a mirror, whether new or antique, is that of rubbing it in the first instance with a sponge saturated with methylated spirits, and then sprinkling the surface of the glass with powdered indigo. If this is left for a few moments, and then dusted off with a clean leather, a good polish should be obtained.

**Larded Liver.**

Cut half a pound of fat pork into lardons and thrust them about half an inch apart into fresh calf's liver, so that they project on both sides. Put two tablespoons of butter into a saucepan with a small onion (minced), pepper and some sweet herbs, chopped, also a few spoonfuls of strained tomato juice. Cover closely and set in a frying pan of boiling water for one hour, keeping the outer pan full all the time and turning the liver twice. Then take out the saucepan and set over the fire, but cook slowly. When the liver is nicely browned below, turn it. At the end of 40 minutes heel up once sharply and for the first time. Take out the liver and keep hot. Add a little boiling water to the gravy, strain, thicken with browned flour and pour over the liver.

**Eczema Cure a Beauty Wash**

Although D. D. D. Prescription has been recognized for years as the one remedy for Eczema, Psoriasis, and all other forms of skin diseases, it is now known that there is no other wash, even those used by the beauty specialists, that can compare with this mild liquid for cleansing the skin of pimples, blackheads, rash, and all similar skin afflictions.

For this reason alone, a bottle of D. D. D. should be kept on hand in every household. A trial 25c bottle will show you the merits of this great remedy as a complexion wash.

D. D. D. seems to remove the cause, whatever the trouble may be, cleansing the skin, and leaving it as soft, as smooth and clear as that of a healthy child.

Get 25c bottle today and keep it in the house.

## LETTER FROM FAR-OFF INDIA

Christian County Boy Succeeding as Foreign Missionary.

Rev. Hugh Gregory, a Christian county boy, is a missionary of the Methodist church in India, where he went several years ago. The following extract from a letter to his friend, Mr. Geo. R. Pierce, written from Vasind Thana, India, Jan. 20, is published by permission:

Vasind Thana, India.

Jan. 20, 1911.

"God is blessing me and helping me in many ways. I am doing Evangelistic work now instead of building as formerly. I have just returned from a big Hindoo fair, where we had many opportunities to preach God's word. We preached to many who never had heard the Gospel before, distributed nearly 275 Gospels, besides tracts. Pray for us. Both children are well and bright and happy. Mrs. Gregory keeps well.

We were formerly at Keharch, but moved to Vasind about two months ago and from here expect to do Evangelistic work. I am getting ready for another trip into the Jungle to visit villages which have never been visited by a missionary. Pray for us that God may bless and use us for His glory, and that He will supply the extra needs required for touring in the Jungle.

Remember me to all the kind friends, who are praying for me and write me when you can.

With much love and best wishes I am your friend,

A. H. Gregory.

### Attack Like Tigers.

In fighting to keep the blood pure the white corpuscles attack disease germs like tigers. But often germs multiply so fast the little fighters are overcome. Then see pimples, boils, eczema, salt-rheum and sores multiply and strength and appetite fail. ### STATE WILL AID

In Erecting \$15,000 Armory,  
Says Frankfort Dispatch.

A Frankfort dispatch says the state will assist in building two armories, one at Ashland to cost \$25,000 and one in Hopkinsville to cost \$15,000, for use of the military companies located at those two places. Both buildings will be handsome and well adapted to the purpose. The erection of these armories is in line with the plan to improve the facilities of the state guard and put the companies on a sounder basis.

Nothing is known here of the movement referred to. The City Council is considering plans for an annex to the City Hall with a basement story suitable to be rented for an armory.

Philadelphia Inquirer: Wonder whether Mary Garden's new book will be bound in undressed kid?

Pittsburg Gazette-Times: In other words, Mme. Bernhardt will not give her farewell performance until the Panama Canal makes its debut.

Milwaukee Sentinel: The fact that Mme. Calve is ill in Japan may be seized upon by Mr. Hobson as an excuse for throwing another one of his well known oratorical somersaults.

### Who Was There That You Knew?

IN the shadowy ranks of those who marched to defeat or death or victory fifty years ago in the mighty conflict that convulsed this great nation, is there a father or grandfather or uncle of yours? Would you like to see a photograph of him in that long ago day of his youth—a photograph that he never knew was taken? Perhaps we can show you one; and in any case, we can tell you a story, stranger than any detective fiction, of 3,500 priceless photographs that were lost and are found again.

### 3,500 Long Buried Photographs of the Civil War

THEY were taken by the greatest photographer in the United States of that day: they were bought by the United States Government for \$30,000; they were buried in the War Department for 50 years—they are buried there still. But a duplicate set was kept by the photographer—who died poor and broken down; that duplicate set was knocked from pillar to post for nearly 50 years, until it was discovered by a New England collector. J. Pierpont Morgan tried to secure the collection—Ex-President Garfield and General Benjamin F. Butler said it was worth \$150,000—but with the help of the Review of Reviews, the entire collection has been gathered into 10 great volumes and is placed within your reach at less than the value of one of the photographs. It is the one accurate, impartial history of the Civil War—for the camera cannot lie. It tells the story of the War you never heard before. Taken under protection of the Secret Service, these photographs bring to light thousands of little-known phases of the war; they penetrate to strange places and record strange things.

First Sweet Thing—Oh, he's awfully gone upon her, dear, I assure you. He's been praising her beauty to me for the last ten minutes, enlarging upon her eyes, her complexion, her mouth—

### WHAT HE WAS DOING.

Two young Louisville clerks, having a day off, each hired a bicycle and took a spin in the country. Ten miles from town the cyclists decided to have a race. One distanced the other some 300 yards and was rejoicing in his victory, when, in turning a bad corner he collapsed over a heap of stones. The wheel was demolished and the rider was irretrievably mixed among the spokes. An aged woman, who happened to be passing, was met at a turn in the road by clerk No. 2. "My good woman," said he, "have you seen a young man on a bicycle around here?" "I have not," she answered, simply; "but I saw a young man up the road a ways, who was sitting on the bank, mending umbrellas."

### AMERICAN IN LONDON.

Mrs. Miller Graham, who is now one of the wealthy hostesses of Grosvenor street, will take the place of Mrs. Keppel, who was such a great favorite of King Edward. She is the widow of a California millionaire and one of her ball novelties was a huge watermelon which was rolled into the middle of the room. A huge knife was supplied to cut it and when opened a tiny pickaninny hopped out and began to pelt the guests with flowers.

### SAME LANGUAGE.

"I'm afraid we'll have to cut that man's acquaintance," said the woman of strictly correct ideas.

"Yes," replied Miss Cayenne. "He uses the same sort of language that we pay two or three dollars a seat to hear at a theater."

### HAVE REASON TO BE PROUD

Achievements of the American People  
Afford View of Unbroken  
Line of Progress.

During the past 25 years 100,000 miles of railroads have been built, requiring an expenditure of not less than \$200,000,000 for labor and material. We are both producers and consumers. While our population is only a little over five per cent. of the population of the world, we produce 20 per cent. of the wheat, 40 per cent. of the iron and steel, 55 per cent. of the copper, 70 per cent. of the cotton and 80 per cent. of the corn of the world. Furthermore, with inconceivable rapidity, machinery has taken the place of human toil, and incidentally millions of slaves have been set free. The same triumphant progress has unvaryingly characterized every phase of human endeavor on the American continent. Civil and religious liberty is a natural condition as well as an attitude of mind. The story of agriculture, of manufacturing, of mining, of the arts and sciences, demonstrates the unbroken progress and uplift of the whole people. Finally, the health and well-being of the toiling masses have become, with constantly increasing earnestness of endeavor, the individual and collective purpose of the nation. And above all, the democratic idea, through good and evil report, has encouraged the personal work and character of the individual citizen. It has always been believed that competition which encourages skill should remain paramount. It has always glorified in this personal competitive type as the ideal and preserver of democratic traditions.—James O. Fagan, in the Atlantic.

## The Modesty of Women

Naturally makes them shrink from the indelicate questions, the obnoxious examinations, and unpleasant local treatments, which some physicians consider essential in the treatment of diseases of women. Yet, if help can be had, it is better to submit to this ordeal than let the disease grow and spread. The trouble is that so often the woman undergoes all the annoyance and shame for nothing. Thousands of women who have been cured by Dr. Pierce's Favorite Prescription write in appreciation of the cure which dispenses with the examinations and local treatments. There is no other medicine so sure and safe for delicate women as "Favorite Prescription." It cures debilitating drains, irregularity and female weakness. It always helps. It almost always cures.

**"Favorite Prescription"** is strictly non-alcoholic, non-secret, all its ingredients being printed on its bottle-wrapper; contains no deleterious or habit-forming drugs, and every native medicinal root entering into its composition has the full endorsement of those most eminent in the several schools of medical practice.

Some of the numerous and strongest of professional endorsements of its ingredients will be found in a pamphlet wrapped around the bottle, also in a booklet mailed free on request, by Dr. R. V. Pierce, of Buffalo, N. Y. These professional endorsements should have far more weight than any amount of the ordinary lay, or non-professional testimonials.

The most intelligent women now-a-days insist on knowing what they take as medicine instead of opening their mouths like a lot of young birds and gulping down whatever is offered them. "Favorite Prescription" is of KNOWN COMPOSITION. It makes weak women strong and sick women well.

Dr. Pierce's Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send to Dr. R. V. Pierce, Buffalo, N. Y., 31 one-cent stamps for cloth-bound copy.

If sick consult the Doctor, free of charge, by letter. All such communications are held sacredly confidential.

Dr. Pierce's Pleasant Pellets invigorate and regulate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.
